Re: Denial of Request for File Closure, C&R Minerals, C&R Minerals Mill, S/019/024, Grand County, Utah

Dear Mr. Cooper:

On November 9, 2000 we received your request to close the file for the C & R Minerals Mill project located on private land in Section 29, Grand County, Utah. On January 18, 2001, the site was inspected to determine if the file could be closed. The inspection revealed a number of mining related equipment remains on the site along with some surface disturbance (copy of inspection memo enclosed).

Your letter of November 9, 2000, indicated that C&R Minerals has not been at the site since 1992, and the property was sold to Dave Marye of Grand Junction, Colorado, phone 970-243-5935. We realize this project is located on private property and that the landowner may wish to retain the equipment on the site; however, we have no proof of this in our file. Numerous attempts to contact Mr. Marye by phone have been unsuccessful.

As mentioned during our March 1, 2001, phone conversation, for the Division to close this file and release the site the mining equipment and structures would need to be removed and the disturbances reclaimed, or the landowner could accept the property "as-is" by providing a letter to the Division. The letter from the property owner would need to indicate their acceptance of the responsibility for any and all structures, equipment and disturbances still present at the site. We realize this situation may cause you concern, since your access to the site may be limited by the new ownership; however, the mine notice was completed by you as the operator.

*The Division annual permit fees will remain due and payable until the file is closed. A billing statement is enclosed for your use, which is due within 30 days.* If you have any questions or concerns regarding this letter, please contact me at (801) 538-5267. Please reference our file number S/019/024 in any correspondence regarding this project.

Sincerely,

Anthony A. Gallegos  
Senior Reclamation Specialist
